[Embracing Survival](#) Oct 22 2019 Embracing Survival, a memoir by Dydine Umunyana, tells the story of the Rwandan Genocide against the Tutsis at the hands of the Hutu perpetrators in Rwanda (1994) through the eyes of the four-year-old-child that she was when the horrific massacre occurred. Separated from her family, she barely survived the conflict. While the physical killing finally stopped, the mental and emotional 'killing' continued, affecting her and her family. She writes that "I have learned that we cannot do for others what we cannot do for ourselves. By nourishing the light within ourselves, we find strength we never knew was there....I came to realize that one's own life experiences are not theirs to keep but ours to teach."

Nine Lies About Work May 09 2021 Forget what you know about the world of work You crave feedback. Your organization's culture is the key to its success. Strategic planning is essential. Your competencies should be measured and your weaknesses shored up. Leadership is a thing. These may sound like basic truths of our work lives today. But actually, they're lies. As strengths guru and bestselling author Marcus Buckingham and Cisco Leadership and Team Intelligence head Ashley Goodall show in this provocative, inspiring book, there are some big lies--distortions, faulty assumptions, wrong thinking--that we encounter every time we show up for work. Nine lies, to be exact. They cause dysfunction and frustration, ultimately resulting in workplaces that are a pale shadow of what they could be. But there are those who can get past the lies and discover what's real. These freethinking leaders recognize the power and beauty of our individual uniqueness. They know that emergent patterns are more valuable than received wisdom and that evidence is more powerful than dogma. With engaging stories and incisive analysis, the authors reveal the essential truths that such freethinking leaders will recognize immediately: that it is the strength and cohesiveness of your team, not your company's culture, that matter most; that we should focus less on top-down planning and more on giving our people reliable, real-time intelligence; that rather than trying to align people's goals we should strive to align people's sense of purpose and meaning; that people don't want constant feedback, they want helpful attention. This is the real world of work, as it is and as it should be. *Nine Lies About Work* reveals the few core truths that will help you show just how good you are to those who truly rely on you.

**Military Recruiting in the United States** Jun 29 2020 Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of

American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. **Seven Lies about Catholic History** Aug 24 2022 The world hates the Church that Jesus founded, just as He said it would (John 15:18). It reviles her doctrines, mocks her moral teachings and invents lies about her history. In every age, but especially in our modern day, historians and political powers have distorted the facts about her past (or just made up novel falsehoods from scratch) to make the Church, and the civilization it fostered, seem corrupt, backward, or simply evil. In *Seven Lies about Catholic History*, Diane Moczar (Islam at the Gates) tackles the most infamous and prevalent historical myths about the Church popular legends that you encounter everywhere from textbooks to T.V. and reveals the real truth about them. She explains how they got started and why they re still around, and best of all, she gives you the facts and the arguments you need to set the record straight about: The Inquisition: how it was not a bloodthirsty institution but a merciful (and necessary) one Galileo's trial : why

moderns invented a myth around it to make science appear incompatible with the Catholic faith (it's not) The Reformation: why the 16th-century Church was not totally corrupt (as even some Catholics wrongly believe), and how the reformers made things worse for everybody and other lies that the world uses to attack and discredit the Faith. Written in a brisk style that's fun and easy to read, Seven Lies about Catholic History provides the lessons that every Catholic needs in order to defend and explain not just apologize for the Church's rich and complex history.

**Busting the Life Insurance Lies** Oct 26 2022 Is life insurance a bad investment? Don't I lose all my cash value when I die? Shouldn't I just make a bundle and invest it instead? What about my spouse or my kids-do they need life insurance? Can I borrow money from (or is it against?) a life insurance policy? My insurance advisor told me one thing about insurance, but my financial planner gave me different advice, and an expert on TV said something else entirely. What do I do now? Help! Every day, people like you and me run into questions like these-and no good answers. The truth about life insurance is that myths, misunderstandings, and even outright lies cause a lot of uncertainty around what it is, how it works, who needs it and when, and-most importantly-the great benefits it can bring to your life. This book is here to clear up all that confusion. With combined experience of over fifty years in the life insurance industry, Kim Butler and Jack Burns know what's true and what isn't. *Debunking the Bump* Nov 03 2020 When Daphne Adler, a mother and mathematician, was pregnant, a colleague scolded her for sprinkling parmesan cheese on her pasta. After dutifully dumping her dinner in the trash, she decided to investigate to find out whether the admonishment and similar warnings were based on fact. What she discovered surprised her-and will surprise you, too. After 3 years of research where she poured over thousands of studies, Adler has reframed the parameters of what should and shouldn't be allowable during pregnancy. Her refreshing and reassuring book finally provides us with a way to separate myth from reality. Fact or fallacy? *Debunking the Bump* sets the record straight with eye-opening revelations such as: \* 44% of obstetricians never mention the most important avoidable cause of birth defects.\* Less than half of all pregnant women are counseled about the most dangerous activity they could undertake while pregnant.\* In the long list of forbidden foods, one category is 10,000 times more risky than others...but its danger is not emphasized.\* Many pregnant women cut down their consumption of the single substance that's the most beneficial to their developing baby. *Debunking the Bump* is a pregnancy book for women with a thirst for facts. It covers not only all the hot pregnancy topics (Is it safe to eat sushi and drink coffee?) but also a variety of additional subjects Adler's exhaustive research uncovered that aren't even mentioned in most pregnancy books. *The Phantom Atlas* Aug 12 2021 A STUNNINGLY ILLUSTRATED BOOK REVEALING THE GREATEST MYTHS, LIES AND BLUNDERS ON MAPS 'Highly recommended' - Andrew Marr 'A spectacular, enjoyable and eye-opening read' - Jonathan Ross *The Phantom Atlas* is an atlas of the world not as it ever existed, but as it was thought to be. These marvellous and mysterious phantoms - non-existent islands, invented mountain ranges, mythical civilisations and other fictitious geography - were all at various times presented as facts on maps and atlases. This book is a collection of striking antique maps that display the most erroneous cartography, with each illustration accompanied by the story behind it. Exploration, map-making and mythology are all brought together to create a colourful tapestry of monsters, heroes and volcanoes; swindlers, mirages and murderers. Sometimes the stories are almost impossible to believe, and remarkably, some of the errors were still on display in maps published in the 21st century. Throughout much of the 19th century more than 40 different mapmakers included the Mountains of Kong, a huge range of peaks stretching across the entire continent of Africa, in their maps - but it was only in 1889 when Louis Gustave Binger revealed the whole thing to be a fake.

For centuries, explorers who headed to Patagonia returned with tales of the giants they had met who lived there, some nine feet tall. Then there was Gregor MacGregor, a Scottish explorer who returned to London to sell shares in a land he had discovered in South America. He had been appointed the Cazique of Poyais, and bestowed with many honours by the local king of this unspoiled paradise. Now he was offering others the chance to join him and make their fortune there, too - once they had paid him a bargain fee for their passage... The Phantom Atlas is a beautifully produced volume, packed with stunning maps and drawings of places and people that never existed. The remarkable stories behind them all are brilliantly told by Edward Brooke-Hitching in a book that will appeal to cartophiles everywhere.

[Dangerous Intentions](#) Mar 19 2022 *Dangerous Intentions: Mouth Full of Lies* is about my experience in a relationship with a Jamaican man named Mark (The Love of My Life) or so I thought. No matter how good things felt with all of the passion, love, time spent together, and chemistry, a web of lies was created. Once lies begin to surface things take a dramatic turn which changes the whole perception of what things appeared to be. I was taken on the ride of my life, the man I thought I knew suddenly became someone I didn't know at all. It was as if a mask was peeling off of his face and the person behind the mask emerged, which was a stranger to me. Our whole relationship seemed to disappear in the blink of an eye. My story will take you through all of the hurt and betrayal I endured. The man that vowed to love me and always be there for me lied and abandoned me. It almost seemed I was playing a character in a movie thinking this can't really be happening. He could no longer run from the truth, it was time to face it. The double life he was living blew up in an unexpected way. Ultimately he sold me a dream, but in the end delivered a nightmare. As my life was turned upside down I slowly moved on

trying to put the pieces back together. In the process I crossed paths with another Jamaican man named Devon, who seemed to be the opposite of Mark. Devon and I would talk all the time about our past relationships which he used as a way to get close to me. I became hesitant pretty quickly as I noticed a dark side emerge that kept revealing itself no matter how much he tried to conceal it. Devon became emotionally and mentally abusive, it was the first time in my life I had ever experienced that type of abuse. He became a complete monster, as I tried to leave him many times I realized unlike the relationship with Mark, getting away from Devon would be more of a challenge. He was a manager at a cruise line where I worked and he made sure to keep reminding me by his actions that things would never be over until he wanted it to be over. I was taken through more twists, turns and confusion. In the end, I had to make a wise decision and forget what I hoped things could be based off of false pretenses and instead do what was best for me.

Pirate Journey Aug 20 2019 Dave Adams is a teenager standing at a crossroads in his life. He's lonely, a bully in need of direction. Through the pages of an ancient, leather-bound journal, Dave makes contact with an ancestor, James Adams, captain of a seventeenth century sailing-ship. Captain Adams is also straddling a fence, and the life of an honest sea-going merchant pales in comparison to the excitement and opportunities available for a captain willing to do what it takes to get ahead. Will the captain's decisions take him and his crew where they want to go? And how will those decisions affect Dave as he makes his way through high school and finds his first summer job? **Blockchain** Mar 07 2021 Don't look any further if you want to learn about Blockchain Today! Nobody likes banks and, for a lot of people, it's for good reason. You go to the teller window five minutes before closing time and she won't acknowledge you because she just wants to close up and go home. Your Paypal account is tied to the banking system and they may yank your account access simply because you got an unusually large payment for something you sold on eBay. You wonder if the homeless aren't caught in some kind of Catch-22 where they can't get access to a decent apartment without a bank account and can't get a bank account without a photo ID that includes their home address. All of these are good points that could be solved with a new digital currency called Bitcoin. Bitcoin is always open for business and won't ignore you even when you want to use it to have a pizza delivered at two in the morning. It won't shut you out simply because you received a transaction worth thousands of dollars from someone buying your car. If you want to use it, literally all you need to do is download the wallet on a laptop or tablet. This is made possible by technology that doesn't care about much of anything except whether you have a device that can link to the Internet even if it means soaking up the free Wi-Fi at the coffee shop and the ability to copy-and-paste a string of letters and numbers or scan a QR code. It's called the Blockchain,

a decentralized ledger that keeps track of debits and credits for all Bitcoin users. There are many ways that the Blockchain can benefit entrepreneurs beyond the fact that it's associated with a currency that makes fraudulent chargebacks impossible. It can be used for many applications that require a reliable and tamper-resistant means of record-keeping. It can be used to give you a competitive edge in a world where the economy is becoming increasingly global and customers increasingly care about how their goods are produced and can hop from one "next big thing" to the next pretty fast. If you're looking at the Blockchain, you probably have a few questions that this book will answer for you. Here Is A Sneak Peek Of What You Will Learn What is The Blockchain? **Certain Personal Matters** Apr 20 2022 The world mends. In my younger days people believed in mahogany; some of my readers will remember it—a heavy, shining substance, having a singularly close resemblance to raw liver, exceedingly heavy to move, and esteemed on one or other count the noblest

7 Myths about Singleness Mar 27 2020 If marriage shows us the shape of the gospel, singleness shows us its sufficiency. Much of what we commonly assume about singleness—that it is primarily about the absence of good things like intimacy, family, or meaningful ministry—is either flat-out untrue or, at the very least, shouldn't be true. To be single, we often think, is to be alone and spiritually hindered. But the Bible paints a very different picture of singleness: it is a positive gift and blessing from God. This book seeks to help Christians—married and unmarried alike—value singleness as a gift from God so that we can all encourage singles to take hold of the unique opportunities their singleness affords and see their role in the flourishing of the church as a whole.

Narrative Machines: Modern Myth, Revolution, & Propaganda Dec 24 2019 Will the future be like a Reality TV show where we compete to have human rights? Will you be popular and relatable enough to successfully crowdfund your healthcare? Tune in 20 years hence and find out. Many will mark 2015 to 2017 as the

transitional moment the nihilistic id came into plain view in American culture and politics. But it is hardly the product of any single movement or idea, and it is hardly unprecedented. Narrative Machines uses a cut-up, pastiche approach to analyze how sub-cultural and fringe ideas permeate the mainstream, especially through the Internet-from Aleksandr Dugin's faux-postmodern Traditionalism to the cult of personality Reality TV show that has taken over every media outlet, from the gnostic horror of Nick Land's Dark Enlightenment to the Calvinism of identity politics, from the millenarian fervor of Transhumanism to the utopian nightmare of Fascism. A retrofuturist aesthetic unites them all, an "occulted theology", allegedly secular recreations of the religious impulse, accidental rewrites of the metaphysics of the past. Compiling ten years of writing and research with a series of palimpsest artworks, this assemblage was created for the outsider artists and insider theorists, and everyone else that lives at the fringes. For those opposed to a world formed by a single, monolithic myth, and yet still seek a collective dream in the fractured panopticon of the present. As Antonin Artaud said in *The Theater and Its Double*, "All writing is filth." Help us give birth to an abomination. Philosophical Project This book will help decode the political repercussions of art and media, using the work of theorists such as Delanda, Bataille, Baudrillard, Gray, Zizek, and Benjamin as a springboard. Art Project A series of illustrations accompany the text, using a mix of collage, bricolage and palimpsest repainting, a style inspired by Adbusters, artists of artifice like Bowie and Warhol, satirists of fascist and pop culture like Laibach and NSK. This cut up, derivative method is explored theoretically within the text. We recognize that in a world where nothing is original, everything is source material for appropriation to new purposes. This aesthetic clearly involve a certain wink in the general direction of 90s Utopian-Dystopian Industrial and alt culture, updated as a dark LSD vision of 2015-17 Internet, a series of love (and hate) notes pieced together

of other sources and painstakingly re-created and subsumed. These pieces will appear in a variety of art shows, and a forthcoming full-color collectors edition.
