She's had to be, ever since their mother, Cecile, left them seven years ago for a radical new life in California. But when the sisters arrive from Brooklyn to spend the summer with their mother, Cecile is nothing like they imagined. While the girls hope to go to Disneyland and meet Tinker Bell, their mother sends them to a day camp run by the Black Panthers. Unexpectedly, Delphine, Vonetta, and Fern learn much about their family, their country, and themselves during one truly crazy summer. This novel was the first featured title for Marley D's Reading Party, launched after the success of #1000BlackGirlBooks. Maria Russo, in a New York Times list of "great kids' books with diverse characters," called it "witty and original." The Contest Problem Book VIII Oct 24 2021 For more than 50 years, the Mathematical Association of America has been engaged in the construction and administration of challenging contests for students in American and Canadian high schools. The problems for these contests are constructed in the hope that all high school students interested in mathematics will have the opportunity to participate in the contests and will find the experience mathematically enriching. These contests are intended for students at all levels, from the average student at a typical school who enjoys mathematics to the very best students at the most special school. In the year 2000, the Mathematical Association of America initiated the American Mathematics Competitions 10 (AMC 10) for students up to grade 10. The Contest Problem Book VIII is the first collection of problems from that competition covering the years 2001–2007. J. Douglas Faires and David Wells were the joint directors of the AMC 10 and AMC 12 during that period, and have assembled this book of problems and solutions. There are 350 problems from the first 14 contests included in this collection. A Problem Index at the back of the book classifies the problems into the following major subject areas: Algebra and Arithmetic, Sequences and Series, Triangle Geometry, Circle Geometry, Quadrilateral Geometry, Polygon Geometry, Counting Coordinate Geometry, Solid Geometry, Discrete Probability,

Statistics, Number Theory, and Logic. The major subject areas are then broken down into subcategories for ease of reference. The problems are cross-referenced when they represent several subject areas.

The Montauk Monster Dec 02 2019 A terrifying new species of predator is loose in a New England resort town in this “wholly enthralling hulk of a summer beach read” (Publishers Weekly). On a hot summer night in Montauk, the bodies of two local bar patrons are discovered in the dunes, torn to shreds, their identities unrecognizable. In another part of town, a woman's backyard is invaded by four creatures that defy description. What's clear is that they're hostile—and they're ravenous. With every sunset the terror rises again, infecting residents with a virus no one can cure. The CDC can't help them; FEMA can't save them. But each savage attack brings Suffolk County Police Officer Gray Dalton one step closer to the shocking source of these unholy creations. Hidden on nearby Plum Island, a U.S. research facility has been running top-secret experiments. What they created was never meant to see the light of day. Now, a vacation paradise is going straight to hell. “Shea combines ancient evil, old school horror, and modern style.” —Jonathan Maberry, New York Times–bestselling author

Waiting for Summer's Return (Heart of the Prairie Book #1) May 19 2021 All alone on the Kansas prairie, Summer Steadman has few options. With her husband and children lost to illness, she has no desire to continue on farther west to where she and her husband planned to build their future. Instead, she seeks employment in a small Mennonite community in order to be near the graves of her family. Widower Peter Ollenburger, the local gristmill owner, needs someone to teach his young son. When he hears of a "learned woman" in town, he believes she is the answer to his prayers. He soon discovers, however, that helping this outsider may have troublesome consequences. There is little this father will not do for his son, but as the boy begins to look at Summer as more than a teacher, Peter must make a choice. Third Grade Angels Aug 02 2022 The long-awaited prequel to the bestseller FOURTH GRADE RATS George, aka "Suds," has just entered third grade, and he's heard the rhyme about "first grade babies/second grade cats/third grade angels/fourth grade rats," but what does this mean for his school year? It means that his teacher, Mrs. Simms, will hold a competition every month to see which student deserves to be awarded "the halo" - which student is best-behaved, kindest to others, and, in short, perfect. Suds is determined to be the first to earn the halo, but he's finding the challenge of always being good to be more stressful than he had anticipated. Does he have to be good even outside of school? (Does he have to be nice to his annoying little sister?) And if Mrs. Simms doesn't actually see him doing a good deed, does it even count? A warm, funny return to elementary school from master storyteller Spinelli.

On Sunset Jul 29 2019 Born in Los Angeles at the dawn of the 1960s to parents who quickly departed, Kathryn Harrison was received by her maternal grandparents as a late-life child. Harry Jacobs and Margaret Sassoon, true wandering Jews, had emigrated to L.A. after leading whirlwind lives in Shanghai, London, Alaska, Russia, and beyond. Harrison grew up in their fading Tudor mansion on Sunset Boulevard, a kingdom inhabited by gleaming memories from their extraordinary past. Their photos, letters, and souvenirs sparked endless family stories that spanned cultures, dynasties, and continents—until declining finances forced them to sell the house in 1971, and night fell fast. Vivid and poignant, filled with the wisdom of retrospect and the wonder of childhood, *On Sunset* seeks to recover a foundational time in her life, affirming the power of storytelling and the endurance of memory.

Season of Life Sep 10 2020 The bestselling inspirational book in which the author reunites with a childhood football hero, now a minister and coach, and witnesses a revelatory demonstration of the true meaning of manhood. Joe Ehrmann, a former NFL football star and volunteer coach for the Gilman high school football team, teaches his players the keys to successful defense: penetrate, pursue, punish, love. Love? A former captain of the Baltimore Colts and now an ordained minister, Ehrmann is serious about the game of football but even more serious about the purpose of life. Season of Life is his inspirational story as told by Pulitzer Prize-winning journalist Jeffrey Marx, who was a ballboy for the Colts when he first met Ehrmann. Ehrmann now devotes his life to teaching young men a whole new meaning of masculinity. He teaches the boys at Gilman the precepts of his Building Men for Others program: Being a man means emphasizing relationships and having a cause bigger than yourself. It means accepting responsibility and leading courageously. It means that empathy, integrity, and living a life of service to others are more important than points on a scoreboard. Decades after he first met Ehrmann, Jeffrey Marx renewed their friendship and watched his childhood hero putting his principles into action. While chronicling a season with the Gilman Greyhounds, Marx witnessed the most extraordinary sports program he'd ever seen, where players say "I love you" to each other and coaches profess their love for their players. Off the field Marx sat with Ehrmann and absorbed life lessons that led him to reexamine his own unresolved relationship with his father. Season of Life is a book about what it means to be a man of substance and impact. It is a moving story that will resonate with athletes, coaches, parents—anyone struggling to make the right choices in life.
