This manual is for personnel concerned with the organization and functions of interior and exterior guard. It includes orders, countersigns, parole words, and responsibility of the main guard including duties of personnel and methods of mounting the guard. The manual also discusses the duties and composition of special guards. b. In situations not covered by this manual and where doubt arises as to the proper action to be taken, the individual must consider his mission and apply sound judgment in making the required decision(s). PREFACE This manual is a guide for commanders and their staffs in the procedures and techniques of foot marches. It describes the march mission, characteristics and types of foot marches, and march training to include planning procedures, duties of commanders, march discipline, march hygiene, and march safety. The material herein applies to all levels of conflict without modification. General Visual signals are any means of communication that require sight and can be used to transmit prearranged messages rapidly over short distances. This includes the devices and means used for the recognition and identification of friendly forces. PREFACE The purpose of this publication is to assist individual service members, unit commanders unit leaders, and field sanitation teams (FSTs) in preventing disease and nonbattle injury (DNBI). The publication provides information on preventive medicine measures (PMM) for the individual service member as well as essential information for the unit commander, unit leaders, and the FST on applying unit-level PMM. When a problem exists beyond unit capabilities, the brigade or division preventive medicine (PVNTMED) section or corps PVNTMED detachments should be called upon to assist in countering the threat.
