What Is Happening? a Mystical Dialogue Jan 20 2022 All the so-called "higher religions" are having a hard time coming to terms with "modernism", especially with the "truths" discovered by the scientific method. This applies even to Christianity which in some ways has been both the initiator and the long-term opponent of modernism with which it has been battling for longer than the other religions. I believe that the central problem is a failure to recognise that science and religion use language

in very different ways. Science (and to some extent philosophy also) attempts to arrive at the truth about the world by vigourously logical methods founded upon experimental testing: a step-by-step procedure that hopefully approaches truth evermore closely. Religion, on the other hand, though it may have some very specific material and historical aspects, is ultimately concerned to express and come to terms with truths that probably lie beyond the horizons of human understanding. Even where there may be some sort of divine revelation of religious truth, this is inevitably expressed in the form of finite metaphor, poetry and myth. Above all I think that this means that religious language has to use a mythological method for conveying its ultimate truths. This is especially obvious in those areas of human concern which the theologians call "eschatological", that is the supposed truths about life after death and the final End and Destiny of Everything. If religions make the mistake of trying to reply to the challenges of science using prosaic, matter-of-fact language, they end up compromising their deepest truths which cannot be expressed in this way. What is needed, instead, is a readiness to use insightful, imaginative and even speculative language: the vehicle of mythopoeic thought in fact. This little book is just an attempt to suggest some outlines of a possible way of expressing the classical truths of the Christian faith in a contemporary, mythological manner. I do not claim "divine revelation" for these ideas

but I do hope that many will be encouraged to engage in a dynamic dialogue over them - even believers in other religions: Reality is ultimately Unitary.

Dialogues with a Modern Mystic Jul 26 2022 Interviews with modern-day mystic Andrew Harvey yield a discourse of mystical depth and beauty.

Martin Buber Oct 05 2020 The first study in any language to provide a complete overview of Buber's thought, remains the definitive guide to the full range of his work and the starting point for all modern Buber scholarship. As well as summarizing Buber's early intellectual development and attitudes - his mysticism, his youthful existentialism, his philosophy of Judaism and religious socialism - it focuses on the two crucial issues of his mature thought: his dialogic or I-Thou philosophy, and his probing of the nature and redemption of evil. As a sensitive, intuitive and perennially fascinating account of one of the twentieth century's great spiritual teachers, and as an influential classic in its own right, *Martin Buber: The Life of Dialogue* reveals the implications of Buber's thought for theory of knowledge, education, philosophy, myth, history and Judaic and Christian belief.

When Mystic Masters Meet Feb 21 2022 This book is a study of the role mystical discourse and experience can play in Christian-Muslim dialogue as a subset of interfaith dialogue in general. It concentrates on the work of two great medieval mystic

masters, one Muslim, the other Christian. The Muslim is the Sufi teacher known to centuries of admirers as al-shaykh al-akbar or "The Greatest Master" -- Muhyi al-Din Ibn al-'Arabi. The Christian is the great German Dominican mystic and philosophical theologian whose status as "master" has become a part of his name -- Meister Eckhart. The book places the mystical discourse of these two masters in conversation with one another for the purposes of articulating "conversation points" between the two discourses which might serve as "nodes" for a possible new matrix for Christian-Muslim dialogue.

Mystical Consciousness Sep 28 2022 Provides a philosophical account of everyday consciousness as a way of understanding mystical consciousness, drawing on the work of many Western and some Japanese thinkers.

Teaching Mysticism Jun 01 2020 The term "mysticism" has never been consistently defined or employed, either in religious traditions or in academic discourse. The essays in this volume offer ways of defining what mysticism is, as well as methods for grappling with its complexity in a classroom. This volume addresses the diverse literature surrounding mysticism in four interrelated parts. The first part includes essays on the tradition and context of mysticism, devoted to drawing out and examining the mystical element in many religious traditions. The second part engages traditions and

religio-cultural strands in which "mysticism" is linked to other terms, such as shamanism, esotericism, and Gnosticism. The volume's third part focuses on methodological strategies for defining "mysticism," with respect to varying social spaces. The final essays show how contemporary social issues and movements have impacted the meaning, study, and pedagogy of mysticism. *Teaching Mysticism* presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces. It surveys the broad range of meanings of mysticism, its utilization in the traditions, the theories and methods that have been used to understand it, and provides critical insight into the resulting controversies.

Possibility of Interreligious Dialogue Jun 13 2021 Is dialogue between the major religions of the world possible? If it is possible, under what conditions? In this book, Michael H. Mitias argues that it is possible provided various conditions are met. These conditions include mutual respect, mutual understanding, and God-centeredness. First, how can a religion that is unusually complex—composed of a doctrine founded in a unique divine revelation, a leadership class of theologians, teachers, clergy, and administrators, and a community across global cultures—show uniform respect to another religion? How can a complex institution like a religion truly understand another religion? Third, can the different religions worship the same God if their

conceptions of God are based on their unique doctrines? Mitias addresses these questions and argues that it is possible for religions to respect and understand one another. Further, he argues that the different conceptions of God are necessarily founded in a belief in the existence of a transcendent, infinite, and wise being.

The Dialogue Jan 08 2021 The Eternal Father speaks to "a human soul" "€" Saint Catherine "€" and describes the substance of the spiritual life. Through allegories, metaphors, and analogies, he guides Saint Catherine "€" and the reader "€" toward a deeper understanding of his divine providence, what is needed to live a holy life, and the importance of prayer and obedience.

A New Companion to Hispanic Mysticism Aug 03 2020 Winner of the 2011 Bainton Prize for Reference Works The “canon” of Hispanic mysticism is expanding. By taking a more inclusive approach to studying mysticism in its “marginal” manifestations, we draw mysticism—in all its complex iterations—back toward its rightful place at the center of early modern spiritual experience.

Gregory Barhebraeus' Mystical Hermeneutics of the Love of God in Dialogue with Islamic Tradition Dec 07 2020 This book is an inquiry into the mystical thought of Gregory Barhebraeus (1226-1286CE) and its contemporary relevance, to offer a

reading of Barhebraeus' mystical texts by bringing them into conversation with critical religious studies and the hermeneutical tradition of philosophy. The methodological focus of my thesis has led me to pay particular attention to the language used for the study of mysticism, and I lay emphasis on finding a new language that avoids the phenomenological assumptions concerning 'mysticism' to attend to the particularity of 'mystic' traditions, such as that of the Syriac mystic tradition inherited by Barhebraeus.

Conversations with God for Teens Nov 25 2019 Suppose you could ask God any question and get an answer. What would it be? Young people all over the world have been asking those questions. So Neale Donald Walsch, author of the internationally bestselling Conversations with God series had another conversation. Conversations with God for Teens is a simple, clear, straight-to-the-point dialogue that answers teens questions about God, money, sex, love, and more. Conversations with God for Teens reads like a rap session at a church youth group, where teenagers discuss everything they ever wanted to know about life but were too afraid to ask God. Walsch acts as the

verbal conduit, showing teenagers how easy it is to converse with the divine. When Claudia, age 16, from Perth, Australia, asks, "Why can't I just have sex with everybody? What's the big deal?", the answer God offers her is: "Nothing you do will ever be okay with everybody. 'Everybody' is a large word. The real question is can you have sex and have it be okay with you?" There's no doubt that the casual question-and-answer format will help make God feel welcoming and accessible to teens. Conversations with God for Teens is the perfect gift purchase for parents, grandparents, and anyone else who wants to provide accessible spiritual content for the teen(s) in their lives.

Repair of the Soul Dec 27 2019 Repair of the Soul examines transformation from the perspective of Jewish mysticism and psychoanalysis, addressing the question of how one achieves self-understanding that leads not only to insight but also to meaningful change. In this beautifully written and thought-provoking book, Karen Starr draws upon a contemporary relational approach to psychoanalysis to explore the spiritual dimension of psychic change within the context of the psychoanalytic relationship. Influenced by the work of Lewis Aron, Steven Mitchell and other relational theorists, and drawing upon contemporary scholarship in the field of Jewish studies, Starr brings

the ideas of the Kabbalah, the ancient Jewish mystical tradition, into dialogue with modern psychoanalytic thought. *Repair of the Soul* provides a scholarly integration of several kabbalistic and psychoanalytic themes relating to transformation, including faith, surrender, authenticity, and mutuality, as well as a unique exploration of the relationship of the individual to the universal. Starr uses the Kabbalah's metaphors as a vivid framework with which to illuminate the experience of transformation in psychoanalytic process, and to explore the evolving view of the psychoanalytic relationship as one in which both parties - the analyst as well as the patient - are transformed.

The Kiss of God: A Dialogue on Science, Mysticism, & Spiritual Practice Sep 16 2021

On May 25th, 2005, Rabbi Zalman Schachter-Shalomi, Hasidic rebbe and founder of the Jewish Renewal movement, traveled from Boulder, Colorado, down to the Center for Contemplative Living in Denver, Colorado, to dialogue with Father Thomas Keating, Trappist monk and one of the founders of the Centering Prayer movement, who had come from St. Benedict's Monastery in Snowmass, Colorado. Herein is contained their sprawling and scintillating dialogue on science, mysticism, and spiritual practice.

Mystical Union in Judaism, Christianity, and Islam Mar 22 2022 Mystics who have spoken of their union with God have come under suspicion in all three major religious traditions, sometimes to the point of condemnation and execution in the case of Christianity and Islam. Nevertheless, in all three religions the tradition of unio mystica is deep and long. Many of the spiritual giants of these three faiths have seen the attainment of mystical union as the heart of their beliefs and practices. Despite its importance, mystical union has rarely been investigated in itself, apart from the wider study of mysticism, and even more rarely from the aspect of comparative studies, especially those based upon broad and expert knowledge of the inner life of the three related monotheistic faiths. This text brings together essays that equally explore the broader idea of unio mystica as well as the mystic traditions within each religion.

Christian Mysticism's Queer Flame Feb 27 2020 Is the Christian mystical tradition a relic of another time, shaped by celibates for celibates, unable to engage meaningfully with people of our time who embrace their corporeality and sexuality as crucial aspects of their journey towards union with God? This book reflects in serious theological depth and detail on the spiritual and sexual journeys of gay men of mature and committed Christian faith, employing the Christian mystical tradition as the lens and

the interlocutor in this process. This study examines the major themes and stages of the mystical tradition as outlined by Evelyn Underhill, but also including more recent work by Ruth Burrows, Thomas Merton and Constance Fitzgerald. Using methods of qualitative research, it then considers the texts of in-depth interviews conducted with men, most of whom are theologians or spiritual leaders with a deep Catholic faith, and all of whom are openly, self-affirmingly gay. Finally, it employs Ricoeur's hermeneutical theory to engage in a creative theological conversation between the traditional mystical stages and themes and these men's lives, as described in their interviews. This is a unique study that brings together ancient spirituality with contemporary lived religion. As such, it will be of interest to scholars of religious studies, theology, Christian mysticism and spirituality, and queer studies. It will be of particular interest to those teach spiritual direction and to all who seek new ways to engage with the spiritual lives of LGBTIQ+ people.

Dialogues with Scientists and Sages Jul 22 2019 This is the first book in which contemporary scientists and mystics share with us-in their own words-their views on space, time, matter, energy, life, consciousness, creation and on our place in the scheme of things. The book is also the story of an American philosopher who-with these dialogues-ventures into ground-breaking territory, and of her search in America,

Europe, India and Nepal for people whose work is at the center of our understanding of reality.

Mystical Union in Judaism, Christianity, and Islam Jul 14 2021 A wide-ranging discussion of mysticism in the great monotheistic world religions, this text features scholars who are internationally renowned. The notion of mystical union with God, of being one with the divine, has seemed scandalous to many Jews, Christians and Muslims; yet in all three faiths the tradition of mystical union is deep and long. Contributions are based upon the broad and expert knowledge of the three related faiths.

Freud and Augustine in Dialogue Apr 23 2022 "It is arguably the case," writes William Parsons, "that no two figures have had more influence on the course of Western introspective thought than Freud and Augustine." Yet it is commonly assumed that Freud and Augustine would have nothing to say to each other with regard to spirituality or mysticism, given the former's alleged antipathy to religion and the latter's not usually being considered a mystic. Adopting an interdisciplinary, dialogical, and transformational framework for interpreting Augustine's spiritual journey in his *Confessions*, Parsons places a "mystical theology" at the heart of Augustine's narrative

and argues that his mysticism has been misunderstood partly because of the limited nature of the psychological models applied to it. At the same time, he expands Freud's therapeutic legacy to incorporate the contemporary findings of physiology and neuroscience that have been influenced in part by modern spirituality. Parsons develops a new psychological hermeneutic to account for Augustine's mysticism that will capture the imagination of contemporary readers who are both psychologically informed and interested in spirituality. The author intends this interpretive model not only to engage modern introspective concerns about developmental conflict and the power of the unconscious but also to reach a more nuanced level of insight into the origins and the nature of the self.

Science, Mysticism and East-West Dialogue Aug 27 2022 Popular perception still persists that science and mysticism do not and cannot mix; they belong to two very different worlds. In light of recent developments, particularly in the sciences, the fourteen original papers by international scholars from the East and the West argue that this perception can no longer be sustained. It is becoming more and more evident that the reach of the human mind extends far beyond what can be captured either by the senses or narrow, rigid logic and rationality. Below and beyond the world of science there exists a serene, real world of intuition and insight which is a rich mine of

knowledge and wisdom. Recent studies and research show that mystics of all times and all places have had a special access to this world. Today the consensus is gradually emerging that both scientists and mystics share the common mission of being seekers of truth, and their findings are complementary rather than contradictory. This volume also points out that this constructive blending of science and mysticism can serve as an effective catalyst for a meaningful and enriching East-West dialogue.

The Wiley-Blackwell Companion to Christian Mysticism Aug 15 2021 The Wiley-Blackwell Companion to Christian Mysticism brings together a team of leading international scholars to explore the origins, evolution, and contemporary debates relating to Christian mystics, texts, and the movements they inspired. Provides a comprehensive and engaging account of Christian mysticism, from its origins right up to the present day Draws on the best of current scholarship by bringing together a collection of newly-commissioned readings by leading scholars Considers examples of mysticism in both Eastern and Western Christianity Offers a brilliant synthesis of the key figures and historical periods of mysticism; its core themes, such as heresy, gender, or aesthetics; and its theoretical considerations, including theological, literary, social scientific, and philosophical approaches Features chapters on current debates such as neuroscience and mystical experience, and inter-religious dialogue

The Dialogue with Death Oct 17 2021 In the Dialouge with Death the author presents the superb mtsticism of Sri Aurobindo as he has expounded it in his own inimitable style in the exquisite poem Savitri.Savitri is a movemental work in which sri Aurodindo is seen as a yogi and a philosopher a mystic and an occultist a poet and a lover all at once. It contains the quintessence of Sri Aurobindo`s great spiritual adventure which aimed at bridging the gulf between Heaven and Earth.

The Im-possibility of Interreligious Dialogue Jun 20 2019 In the face of competing religious claims in our shrinking world, many turn to dialogue as a hopeful way of fostering understanding and reducing violence. But why does actual dialogue so often fail? This provocative study investigates the possibilities and limits of interreligious dialogue. By showing the significant obstacles for dialogue within Christianity, the book also proposes ways in which these obstacles may be overcome from within. Major themes include Humility, Conviction, Interconnection, Empathy, and Generosity.

Mystics and Scholars Nov 06 2020 In September of 1976 a group of some fifty scholars and practising mystics gathered at the University of Calgary. The chief objective of the Conference was to ponder and assess the nature of mysticism in its Eastern, Western and North American Indian forms. The method the Conference

followed was somewhat unusual in that it aimed at a dialogue between the practising mystics and the scholars. What this book presents to the reader is not the outcome of the dialogue, but the personal statements and papers from which the dialogue began. Of course there is a degree to which the dialogue is already present, in that the papers of the scholars were written with the statements of the mystics in hand. Among some of the philosophers present, a set of more formal comments on each others presentations was recorded and these have been included.

Daniel Apr 11 2021 Better than any other single work, Daniel enables us to understand the significance of the transition Buber made from his early mysticism to the philosophy of dialogue. The book is written in the form of five dialogues, in each of which Daniel and his friends explore a crucial philosophical problem-the nature of interconnection of unity, creativity, action, form, and realization as these illuminate the relations of man to God and the world. Daniel occupies a central position in Buber's life work.

Mysticism in the Theater Oct 25 2019 Mysticism in the Theater introduces theater makers to the power and possibility of using historical mystical ideas to influence all aspects of a production. Historical mysticism represents ideas developed by recognized spiritual thinkers in all religions and time periods: individuals who stilled their ego, and

perceived the unity of all, hidden within the apparent multiplicity of existence. This unique manner of spiritual inlay allows theatrical presentations to find the height of artistic expression: art at the intersection of our historical moment and the eternal. This study introduces theater makers to the history of mystical inspiration within performance work and develops strategies for inserting mystical ideas into their productions. The book ties this model into theatre's history, as mystical ideas and quotes have been inserted into productions from Greek theatre through Shakespeare and into the present day. This book explores how teachings and ideas of specific historical mystical thinkers might influence all aspects of contemporary theatrical productions including writing, directing, acting, stagecraft/set design, lighting design, costume design, sound design, and choreography.

The Mysticism of The Cloud of Unknowing Mar 30 2020 For centuries, mystics have groped for words in which to account for the supreme reality of this experience which not only illuminates a man's mind and fills his heart with new strength, but even radically transforms his whole life. All this is said in classic and unforgettable pages by The Cloud of Unknowing, the work of an anonymous fourteenth-century English writer. *The Dialogue* Nov 18 2021 Catherine of Siena (1347-1380), mystic and Doctor of the Church, wrote *The Dialogue*, her crowning spiritual work, for "the instruction and

encouragement of all those whose spiritual welfare was her concern."

Between the 'Mysticism of Politics' and the 'Politics of Mysticism' Jul 02 2020

Between the Politics of Mysticism and the Mysticism of Politics traces the dialectic of 'the mystical' and the political' from both a theological and an historical perspective. It presents the dialectic as a hermeneutic for the rise of the new ecclesial communities within the Roman Catholic Tradition and suggests it as the framework by which a trajectory for Christian holiness might emerge in the 21st century.

Martin Buber's I and Thou Sep 23 2019 Martin Buber's classic philosophy of dialogue, I and Thou, is at the core of Kenneth Paul Kramer's scholarly and impressive guide. The three main parts of Kramer's work parallel the three key sections of I and Thou while focusing on Buber's concepts of nature, turning, spirit-becoming-forms, true community, the real I, and the eternal Thou. Kramer also illuminates Buber's two fundamental dialogues: the I-Thou and the I-It, Kramer clarifies, puts into practice, and vigorously affirms the moral validity of Buber's philosophy - with its extension to love, marriage, the family, the community, and God - in the conviction that "genuine dialogue" will produce better relations with one another, the world, and God.

Depth Psychology and Mysticism Sep 04 2020 Since the late 19th century, when the "new science" of psychology and interest in esoteric and occult phenomena converged

– leading to the “discovery” of the unconscious – the dual disciplines of depth psychology and mysticism have been wed in an often unholy union. Continuing in this tradition, and the challenges it carries, this volume includes a variety of interdisciplinary approaches to the study of depth psychology, mysticism, and mystical experience, spanning the fields of theology, religious studies, and the psychology of religion. Chapters include inquiries into the nature of self and consciousness, questions regarding the status and limits of mysticism and mystical phenomenon, and approaches to these topics from multiple depth psychological traditions.

A Sufi-Jewish Dialogue May 24 2022 Written in Judeo-Arabic in eleventh-century Muslim Spain but quickly translated into Hebrew, Bahya Ibn Paquda's *Duties of the Heart* is a profound guidebook of Jewish spirituality that has enjoyed tremendous popularity and influence to the present day. Readers who know the book primarily in its Hebrew version have likely lost sight of the work's original Arabic context and its immersion in Islamic mystical literature. In *A Sufi-Jewish Dialogue*, Diana Lobel explores the full extent to which *Duties of the Heart* marks the flowering of the "Jewish-Arab symbiosis," the interpenetration of Islamic and Jewish civilizations. Lobel reveals Bahya as a maverick who integrates abstract negative theology, devotion to the inner life, and an intimate relationship with a personal God. Bahya emerges from

her analysis as a figure so steeped in Islamic traditions that an Arabic reader could easily think he was a Muslim, yet the traditional Jewish seeker has always looked to him as a fountainhead of Jewish devotion. Indeed, Bahya represents a genuine bridge between religious cultures. He brings together, as well, a rationalist, philosophical approach and a strain of Sufi mysticism, paving the way for the integration of philosophy and spirituality in the thought of Moses Maimonides. *A Sufi-Jewish Dialogue* is the first scholarly book in English about a tremendously influential work of medieval Jewish thought and will be of interest to readers working in comparative literature, philosophy, and religious studies, particularly as reflected in the interplay of the civilizations of the Middle East. Readers will discover an extraordinary time when Jewish, Christian, and Islamic thinkers participated in a common spiritual quest, across traditions and cultural boundaries.
