International Project Finance Nov 01 2022 Companion website: [www.oup.com/dewar](http://www.oup.com/dewar) Now in its third edition. International Project Finance is the definitive guide to legal and practical issues relating to international projects. The book considers the application of English and New York law in cross-border documentation and legal and practical matters associated with running financing projects in civil law jurisdictions. Different sources of funding are also examined, such as banking and international bond documentation, and Islamic financing practice, in particular the use of Murabaha financing techniques and Sukuk (Islamic bond) market. This includes the legal and documentation issues arising from the use of such financing techniques and how they interact with each other from a legal and contractual perspective. Equally significant, the book provides analysis of project defaults and work-outs giving guidance on how to manage projects when these circumstances arise. The book also contains extensive coverage of dispute resolution in international projects. New to this edition is a chapter on development finance institutions covering the work of bodies such as the World Bank and the African Development Bank. This chapter explains the key roles played by these institutions in international project finance, especially in emerging markets. It covers the key policy issues and the impact of such policies on project finance documentation. As well as addressing the basic principles which affect the structuring and documentation of project financings, the book also explains structural, legal and contractual differences between the various sectors such as transportation, infrastructure/Public Private Partnerships, conventional, renewable and nuclear power, mining, and oil and gas. Telecommunications, including broadband, are covered in more detail in a separate section for this edition. This book provides the context of international project finance which underpins the understanding of legal analysis in this area. It includes detailed guidance on practical issues such as the identification and assessment of project risk, together with relevant documentation such as risk matrices and checklists covering both key project contracts and the major terms of a project financing. With its focus on international projects and emphasis on the practical application of the law, this book is an essential reference work for all practitioners in the field. International Project Finance 3e Digital Pack includes a copy of the hardback and a digital version available on PC, Mac, Android devices, iPad or iPhone for quick and easy access wherever you are.

[Constitutions in the Global Financial Crisis Oct 08 2020](#) This book is the first to address the multi-faceted influence of the global financial crisis on the national constitutions of the countries most affected. By tracing

the impact of the crisis on formal and informal constitutional change, sovereignty issues, fundamental rights protection, regulatory reforms, jurisprudence, the augmentation of executive power, and changes in the party system it addresses all areas of the current constitutional law dialogue and aims to become a reference book with regard to the interaction between financial crises and constitutions. The book includes contributions from prominent experts on Greece, Hungary, Iceland, Ireland, Italy, Latvia, Portugal, Spain, the UK, and the USA providing a critical analysis of the effects of the financial crisis on the constitution. The volume's extensive comparative chapter pins down distinct constitutional reactions towards the financial crisis, building an explanatory theory that accounts for the different ways constitutions responded to the crisis. How and why constitutions formed their reactions in the face of the financial crisis unravels throughout the book.

**Drugs Law and Legal Practice in Southeast Asia** Dec 10 2020 Drugs Law and Legal Practice in Southeast Asia investigates criminal law and practice relevant to drugs regulation in three Southeast Asian jurisdictions: Indonesia, Singapore and Vietnam. These jurisdictions represent a spectrum of approaches to drug regulation in Southeast Asia, highlighting differences in practice between civil and common law countries, and between liberal and authoritarian states. This book offers the first major English language empirical investigation and comparative analysis of regulation, jurisprudence, court procedure, and practices relating to drugs law enforcement in these three states.
