The Puzzle of Ethics Apr 05 2020 First Published in 1994. Is there such a thing as right and wrong? Are some codes of behaviour more justified than others? Is it foolish to believe in moral principles? Is 'virtue' just a quaint Victorian term and does anyone care in any case? The Puzzle of Ethics tackles these formidable questions and many more in a clear and easy to understand manner without every becoming superficial. Throughout the approaches of major philosophers are explained and specific issues are addressed, including: Just War theory, situation ethics, abortion, euthanasia, as well as Buddhist, Hindu and Islamic ethics. This challenging book is of considerable relevance, dealing as it does with the central areas of ethical concern in today's world. It is the ideal introduction to the field for students.

*Secret Language of Animals Jun 27 2019 Unlock the secrets behind the behavior of the world's most fascinating creatures? from the Adélie penguin to the plains zebra to the giant panda?in this wonderfully written, beautifully illustrated book. In *The Secret Language of Animals*, biologist Janine Benyus takes us inside the animal kingdom and shows us the whys and the hows behind the distinctive behavior of creatures great and small in their natural environments. Divided geographically into five sections?Africa, Asia, North America, the oceans, and the poles?the book examines and describes the behavior, body language, and patterns of communication of 20 different animals: the gorilla, lion, African elephant, plains zebra, black rhinoceros, giraffe, ostrich, greater flamingo, Nile crocodile, giant panda, peacock, Komodo monitor, bottlenose dolphin, California sea lion, gray wolf, bald eagle, sandhill crane, beluga whale, polar bear, and Adélie penguin. For each animal, Benyus describes and explains basic behaviors (locomotion, feeding, drinking, bathing, grooming, sleeping), communication behavior (greeting, social play, group defense, conflict, aggression/submission, fighting, courtship, copulation), and parenting behavior (birth, care and feeding, teaching, communal care). The book is illustrated throughout with tender yet precise line drawings that beckon us to the animals and vividly capture everything from changing facial expressions to nurturing postures to playful and aggressive interactions. The text, too, is both intimate and informative, allowing for a deep connection with, and a great admiration for, each one of the animals.*

Aermacchi Jun 19 2021 This book is the third in the Redline books Enthusiasts Series. It tells the story of one of Italy's premiere post-war marques. With a history steeped in aviation, including the MC72 World Speed Record holder and World War II fighters, Aermacchi began building motorcycles in 1950. At the 1956 Milan Show, the futuristic Chimera, an ohv horizontal single with enclosed bodywork was launched. Later in the decade the Chimera was 'undressed' to create some of Italy's best sports and racing machines, including the Ala Verde and the Ala d'Oro. In 1960 Harley Davidson bought 50% of Aermacchi, and then in 1978 the Varese factory was sold to Cagiva. A number of Aermacchi personalities have contributed to this book, giving it additional authority.
