*Economics and Sociology* Apr 29 2022 The boundary between economics and sociology is presently being redefined--but

how, why, and by whom? Richard Swedberg answers these questions in this thought-provoking book of conversations with well-known economists and sociologists. Among the economists interviewed are Gary Becker, Amartya Sen, Kenneth Arrow, and Albert O. Hirschman; the sociologists include Daniel Bell, Harrison White, James Coleman, and Mark Granovetter. The picture that emerges is that economists and sociologists have paid little attention to each other during most of the twentieth century: social problems have been analyzed as if they had no economic dimension and economic problems as if they

had no social dimension. Today, however, there is a dialogue between the two fields, as economists take on social topics and as sociologists become interested in rational choice and "new economic sociology." The interviewees describe how they came to challenge the present separation between economics and sociology, what they think of the various proposals to integrate the fields, and how they envision the future. The author summarizes the results of the conversations in the final chapter. The individual interviews also serve as superb introductions to the work of these scholars.

**W.B. Yeats** Jun 19 2021 This is

the first one-volume selection of Yeats's work to include plays, criticism, and other prose writings alongside the poems. As a result it offers a unique perspective on the connectedness of Yeats's literary output, showing how his aesthetic, spiritual, and political development was reflected in everything he wrote. W. B. Yeats was born in 1865, only 38 years after the death of William Blake, and died in 1939, the contemporary of Ezra Pound and James Joyce. His career spanned two centuries and this anthology represents the full range of his achievement, from the Romantic early poems of *Crossways* and the symbolist

masterpiece *The Wind Among the Reeds to Last Poems*. Myth and folk-tale influence both his poems and his plays, represented here by Cathleen Ni Houlihan and Deirdre among others. In his critical essays Yeats expounds his idiosyncratic magical symbolism and a selection of occult writings further explores the profound importance of the spirit world to his life and work. Political speeches, autobiographical writings, and a selection of letters complete the edition.

**The Major Works** Dec 26 2021 This authoritative edition was originally published in the acclaimed Oxford Authors series under the general editorship of Frank Kermode. It brings together a unique combination of Keats's poetry and prose - all the major poems, complemented by a generous selection of Keats's letters - to give the essence of

his work and thinking. In his tragically short life Keats wrote an astonishing number of superb poems; his stature as one of the foremost poets of the Romantic movement remains unassailable. This volume contains all the poetry published during his lifetime, including *Endymion* in its entirety, the Odes, "Lamia", and both versions of "Hyperion." The poetry is presented in chronological order, illustrating the staggering speed with which Keats's work matured. Further insight into his creative process is given by reproducing, in their original form, a number of poems that were published posthumously. Keats's letters

are admired almost as much as his poetry and were described by T. S. Eliot as "certainly the most notable and most important ever written by any English poet." They provide the best biographical detail available and shed invaluable light on Keats's poems.

**The History of Ancient Chinese Economic Thought**

Jan 27 2022 This volume comprises twelve papers

written by Chinese scholars on various aspects of the history of ancient Chinese economic thought. The contributions are preceded by an introduction which gives an overview of the development of the subject of history of economic thought in China, and which also provides an historical context to the individuals who constitute the major "schools" of ancient Chinese economic thought. The authors of the papers are leading scholars who have dominated this research area since the founding of New China in 1949, while the broad range of topics covered by the contributions includes questions of methodology, detailed and sometimes

controversial interpretations of texts and "schools", and the international influence and modern relevance of ancient Chinese thought. A recurrent theme is that ancient Chinese thought has at least as much to offer to the historian as ancient Western thought. As the first such volume of papers to be translated into English, this collection provides a unique opportunity for non-Chinese readers to sample the way in which Chinese historians of economics have attempted to understand their own intellectual heritage. This book will be relevant to scholars interested in the history of economic thought, economic history and Chinese studies.

In *The Suspicion of Virtue*, John J. Conley, S. J., explores the moral philosophies developed by five women authors of that milieu: Madame de Sablé, Madame

Deshoulières, Madame de la Sablière, Mlle de la Vallière, and Madame de Maintenon. Through biography, extensive translation, commentary, and critical analysis, *The Suspicion of Virtue* presents the work of women who participated in the philosophical debates of the early modern period but who have been largely erased from the standard history of philosophy. Conley examines the various literary genres (maxim, ode, dialogue) in which these authors presented their moral theory. He also unveils the philosophical complexity of the arguments presented by these women and of the salon culture that nurtured their preoccupations.

Their pointed critiques of virtue as a mask of vice, Conley asserts, are relevant to current controversy over the revival of virtue theory by contemporary ethicists.
