Killing Me Softly Jul 29 2022 Killing Me Softly is a radical and compelling examination of the current euthanasia debate. Frustrated by continuing controversy and political inaction in this area, prominent activists Philip Nitschke and Fiona Stewart present a powerful argument in favour of our right to die as we choose. Their concerns include the way in which the medical profession has assumed 'ownership' of death, and the fact that existing laws restrict our end-of-life choices. They offer a future where a 'Peaceful

Pill' could revolutionise euthanasia just as the contraceptive pill transformed birth control a generation ago. This book is recommended reading, not just for those who already believe we have the right to choose a dignified death but also for anyone still to be persuaded . . .

Killing Me Softly Apr 13 2021 When we look around us, we find so much suffering in the world that we can't help but ask Why? Long time ago God in Hosea 4:6 lamented that his people were being destroyed for the lack of knowledge. His people are still being destroyed today. The question again is Why? In John 10:10, Jesus said the devil comes into our lives not to do anything but to steal, kill and destroy. As believers, Jesus has given us the authority over all the powers of the thief, murderer, destroyer, and our real enemy Satan, also known as the devil. Somehow, we seem to have forgotten our spiritual heritage, our spiritual rights and responsibilities, and therefore the devil has taken undue advantage of our ignorance. This book along with the companion end-time spiritual warfare prayer book, Target or Weapon- The Prayer Book provide instructions on how to stand on the Word of God, to help you vanquish the controlling spirits in your life. Let these prayers be part of your daily spiritual exercise. Standing on the Word of God causes a shaking in the spiritual realm on your behalf, because God backs His Word and watches to perform it.

Killing Us Softly Jan 29 2020 The Christian life is actually a kind of death. We die to ourselves, take up our cross, and follow Jesus. Efreem Smith helps us see that Christian discipleship is a counterintuitive life. In a world turned upside down by sin, God carefully and lovingly strips us of worldly values and turns us right-side up as good citizens and ambassadors of his Kingdom.

Killing Me Softly from Inside Aug 18 2021 Most of us think of acid reflux disease as something annoying, a nuisance. When someone hears the words “acid reflux” they generally think of it as the symptoms of stomach bloating, stomach gas and heartburn, usually caused by eating spicy food late at night. Often, we treat our heartburn by going to the local drugstore and buying over the counter medications such as Tums, Alka-Seltzer, Maalox, and Pepto-Bismol. “Plop plop, fizz, fizz the heartburn goes away so now I can continue on with my day.” Alas, how we all wish it was that simple. The fact is that tens of millions of people have acid reflux without heartburn. How could that be? Dr. Jonathan E. Aviv, MD, FACS, a world-renowned physician, surgeon, educator, and inventor, and one of the leading authorities on the diagnosis and treatment of acid reflux disease, cough, and voice and swallowing disorders, draws upon his decades of medical experience, both in and out of the operating room, to bring you the real story of acid reflux disease and its devastating impact on the general public. He explicitly and meticulously connects the extremely acidic, highly processed “food” Westerners eat, to acid reflux disease, and ultimately to esophageal cancer. This connection is a startling breakthrough and Dr. Aviv provides a solution with his Acid Watcher® Diet, a unique dietary program that combines low acid foods along with the three macro-nutrients with a high fiber component, to make delicious, healthy meals, designed using easy to follow recipes and meal plans, to keep your body acid free while maintaining excellent health for years to come. Killing Me Softly From Inside is not just another medical self-help book, it may very well be a prescription that can one day save your life.

Politics of Rightful Killing Feb 21 2022 In the early 2000s, mainstream international news outlets celebrated the growth of Weblogistan—the online and real-life transnational network of Iranian bloggers—and depicted it as a liberatory site that gave voice to Iranians. As Sima Shakhshari argues in *Politics of Rightful Killing*, the common assumptions of Weblogistan as a site of civil society consensus and resistance to state oppression belie its deep internal conflicts. While Weblogistan was an effective venue for some Iranians to “practice democracy,” it served as a valuable site for the United States to surveil bloggers and express anti-Iranian sentiment and policies. At the same time, bloggers used the network to self-police and enforce gender and sexuality norms based on Western liberal values in ways that unwittingly undermined Weblogistan's claims of democratic participation. In this way, Weblogistan became a site of cybergovernmentality, where biopolitical security regimes disciplined and regulated populations. Analyzing online and off-line ethnography, Shakhshari provides an account of digital citizenship that raises questions about the internet's relationship to political engagement, militarism, and democracy.
