Pillar of the Sky Nov 08 2020 A novel of primitive England and the birth of the breathtaking monoliths known as Stonehenge, from “a first-class storyteller” (People). In a time before recorded history, on an island that many centuries later would come to be known as Britain, Moloquin, the Unwanted One, dreams of a pathway to the heavens. Cast out as a child, he survives by his wits alone on the fringes of tribal society and grows into manhood driven by one powerful and unshakable ambition: to build a link between the earthly and the spiritual worlds through the raising of an impossible structure. But to accomplish such a momentous feat in this primitive age of stone will not only require superhuman strength, it will entail unraveling the very fabric of life. Still, Moloquin will not be deterred in his quest, and he will stand courageously against all enemies, court untold disaster, sacrifice what he must, and remake his entire world to see his great vision gloriously realized. One of today's foremost historical novelists, Cecelia Holland explores the strange and enduring mystery of Stonehenge, one of the true wonders of the ancient and modern world. A breathtaking speculation, *Pillar of the Sky* is an unforgettable tale brimming with action, colorful characters, vivid detail, intelligence, and wonder, while presenting a possible history of the man-made miracle on Salisbury Plain that confounds scientists, scholars, and archaeologists to this day.

A Ladder to the Sky Dec 10 2020 “A satire of writerly ambition wrapped in a psychological thriller . . . An homage to Patricia Highsmith, Oscar Wilde and Edgar Allan Poe, but its execution is entirely Boyne's own.”—Ron Charles, *The Washington Post* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND MINNEAPOLIS STAR TRIBUNE Maurice Swift is handsome, charming, and hungry for fame. The one thing he doesn't have is talent—but he's not about to let a detail like that stand in his way. After all, a would-be writer can find stories anywhere. They don't need to be his own. Working as a waiter in a West Berlin hotel in 1988, Maurice engineers the perfect opportunity: a chance encounter with celebrated novelist Erich Ackermann. He quickly ingratiates himself with the powerful – but desperately lonely – older man, teasing out of Erich a terrible, long-held secret about his activities during the war. Perfect material for Maurice's first novel. Once Maurice has had a taste of literary fame, he knows he can stop at nothing in pursuit of that high. Moving from the Amalfi Coast, where he matches wits with Gore Vidal, to Manhattan and London, Maurice hones his talent for deceit and manipulation, preying on the talented and vulnerable in his cold-blooded climb to the top. But the higher he climbs, the further he has to fall. . . . Sweeping across the late twentieth century, *A Ladder to the Sky* is a fascinating portrait of a relentlessly immoral man, a tour de force of storytelling, and the next great novel from an acclaimed literary virtuoso. Praise for *A Ladder to the Sky* “Boyne's mastery of perspective, last seen in *The*

Heart's Invisible Furies, works beautifully here. . . . Boyne understands that it's far more interesting and satisfying for a reader to see that narcissist in action than to be told a catchall phrase. Each step Maurice Swift takes skyward reveals a new layer of calumny he's willing to engage in, and the desperation behind it . . . so dark it seems almost impossible to enjoy reading A Ladder to the Sky as much as you definitely will enjoy reading it."—NPR

"Delicious . . . spins out over several decades with thrilling unpredictability, following Maurice as he masters the art of co-opting the stories of others in increasingly dubious ways. And while the book reads as a thriller with a body count that would make Highsmith proud, it is also an exploration of morality and art: Where is the line between inspiration and thievery? To whom does a story belong?"—Vanity Fair

Wonders in the Sky Jan 23 2022 In a comprehensive resource, the authors document more than 500 pre-20th-century UFO accounts, from biblical times to the end of the 19th century, just before humans took to the sky themselves. Original.

The Four Corners of the Sky Oct 08 2020 "There's humor and action aplenty, but Four Corners is also a warmhearted look at how we love and forgive. Five hundred and forty-four pages never seemed so short"—People, 4 stars, People Pick The Four Corners of the Sky is master storyteller Michael Malone's new novel of love, secrets, and the mysterious bonds of families. Malone brings characters to life as only he can, exploring the questions that defy easy answers: Is love a choice or a calling? Why do the ties of family bind so tightly? And is forgiveness a gift to others...or a gift we give ourselves? In small towns between the North Carolina Piedmont and the coast the best scenery is often in the sky. On flat sweeps of red clay and scrub pine the days move monotonously, safely, but above, in the blink of an eye, dangerous clouds can boil out of all four corners of the sky...The flat slow land starts to shiver and anything can happen. In such a storm, on Annie Peregrine's seventh birthday, her father gave her the airplane and minutes later drove out of her life. Thus begins an enchanting novel that bursts with energy from the first pages, and sweeps you off on a journey of unforgettable characters, hilarious encounters, and haunting secrets. Praise for The Four Corners of the Sky: "Devoted Michael Malone fans have been waiting more than twenty years for another Handling Sin, perhaps the greatest road novel since Tom Jones. The wait is over..."— Bill Ott, editor-in-chief, Booklist "Secrets and intrigues among the honeysuckle: a sun-washed yarn of the New South, affectionately told." —Kirkus starred review "The Four Corners of the Sky is the best thing I have read in years and you can imagine how much I read. Truly, I couldn't put it down. I loved it."—Kathy Ashton, The King's English Bookshop BONUS READING GROUP GUIDE INCLUDED

sculptures, books and installations that are frequently inspired by China's rich heritage of print culture and bookmaking. (The number of invented characters was based on the actual number of characters in common usage in China.) It took Xu Bing four years to carve the type and create the characters for this extraordinary work, which he first conceived in 1986 as "a book that no one would ever be able to read." The volume includes Xu Bing's own account of the work's genesis, as well as extended commentary by a range of scholars.

Kristof and Sheryl WuDunn, take us on a journey through Africa and Asia to meet an extraordinary array of exceptional women struggling against terrible circumstances. More girls have been killed in the last fifty years, precisely because they are girls, than men were killed in all the wars of the twentieth century combined. More girls are killed in this routine 'gendercide' in any one decade than people were slaughtered in all the genocides of the twentieth century. In the nineteenth century, the central moral challenge was slavery. In the twentieth, it was totalitarianism. In the twenty-first, Kristof and WuDunn demonstrate, it will be the struggle for gender equality in the developing world. Fierce, moral, pragmatic, full of amazing stories of courage and inspiration, *HALF THE SKY* is essential reading for every global citizen.

Ink Art Jun 15 2021 "Featuring 70 works in various media--paintings, calligraphy, photographs, woodblock prints, video, and sculpture--that were created during the past three decades, Ink Art: Past as Present in Contemporary China will demonstrate how China's ancient pattern of seeking cultural renewal through the reinterpretation of past models remains a viable creative path. Although all of the artists have transformed their sources through new modes of expression, visitors will recognize thematic, aesthetic, or technical attributes in their creations that have meaningful links to China's artistic past. The exhibition will be organized thematically into four parts and will include such highlights as Xu Bing's dramatic Book from the Sky (ca. 1988), an installation that will fill an entire gallery; Family Tree (2000), a set of vivid photographs documenting a performance by Zhang Huan in which his facial features--and his identity--are obscured gradually by physiognomic texts that are inscribed directly onto his face; and Map of China (2006) by Ai Weiwei, which is constructed entirely of wood salvaged from demolished Qing dynasty temples." --

Half the Sky Apr 25 2022 #1 NATIONAL BESTSELLER • A passionate call to arms against our era's most pervasive human rights violation—the oppression of women and girls in the developing world. From the bestselling authors of *Tightrope*, two of our most fiercely moral voices With Pulitzer Prize winners Nicholas D. Kristof and Sheryl WuDunn as our guides, we undertake an odyssey through Africa and Asia to meet the extraordinary women struggling there, among them a Cambodian teenager sold into sex slavery and an Ethiopian woman who suffered devastating injuries in childbirth. Drawing on the breadth of their combined reporting experience, Kristof and WuDunn depict our world with anger, sadness, clarity, and, ultimately, hope. They show how a little help can transform the lives of women and girls abroad. That Cambodian girl eventually escaped from her brothel and, with assistance from an aid group, built a thriving retail business that supports her family. The Ethiopian woman had her injuries repaired and in time became a surgeon. A Zimbabwean mother of five, counseled to return to school, earned her doctorate and became an expert on AIDS. Through these stories, Kristof and WuDunn help us see that the key to economic progress lies in unleashing women's potential. They make clear how so many people have helped to do just that, and how we can each do our part. Throughout much of the world, the greatest unexploited economic resource is the female half of the population. Countries such as China have prospered precisely because they emancipated women and brought them into the formal economy. Unleashing that process globally is not only the right thing to do; it's also the best strategy for fighting poverty. Deeply felt, pragmatic, and inspirational, *Half*

She can't bring herself to open up to anyone about her past, or about what prompted her to flee her native Japan. Then, Ginny finds a mysterious scrawl among Stephanie's scraps of paper and storybook drawings that changes everything: The sky is about to fall. Where do you go? Ginny sets off on the road in search of an answer, with only her journal as a confidante. In witty and brutally honest vignettes, and interspersed with old letters from her expatriated family in North Korea, Ginny recounts her adolescence growing up Zainichi, an ethnic Korean born in Japan, and the incident that forced her to leave years prior.
